

Rhyming pairs

Print this page and cut out the pictures. See if you can help the child/young person to match up the pictures into the pairs of pictures which rhyme. For example, 'cat' and 'hat' rhyme, as they share the same end sounds. The adult may need to say the words to help the child/young person to hear the rhyming words. To make the activity easier, give a choice of two pictures: does 'hat' rhyme with 'cat' or 'bee'?
